Products - New & Old

WELCOME TO THE NO BS ZONE OF TEDDY JACOBSON

CleenBore USA - Made by (EDIT – Distributed by) Lanigan Performance Products is a cleaning product that was designed to provide a fast efficient barrel cleaning solution for small arms while in the field. Using CO2 cartridges it shoots a bore cleaning saturated plug (cleaning wads) thru the bore for cleaning purposes. These wads come in various calibers. This is a very good idea especially for military units and when you must achieve a clean bore very quickly. I suggest you call Chris Lanigan at (888)-292-0006 or you can email Chris at Lanigan@laniganperformance.com or go to Chris's Website at <http://www.laniganperformance.com/> or <http://www.cleenboreusa.com/>.
